Thermal Printer Supplies

CLP is a top-tier supplier of thermal printer labels and ribbons. We have many sizes in stock and offer multiple quality levels of TT and DT labels. CLP offers a variety of TT ink ribbon formulas to meet any industry's needs.

Thermal Printers

CLP is one of the largest thermal printer resellers in Southern CA. We have options from Printronix, Zebra, Citizen and more, including printers with online barcode verification.

Barcode Verification Tools

Unreadable barcodes are not only useless but can result in chargebacks. CLP has the answer to achieving high quality barcodes. This includes offline verifiers from Axicon and online verification from Printronix.

Label Printing Software

CLP is proud to offer label printing software from NiceLabel. Quickly design barcode labels without IT help and improve print productivity. Our staff is trained to provide support for this robust software platform.

Chargeback Solutions

If you are having trouble with carton label chargebacks, CLP can help. Our proven solutions include our ScuffResist Premium DT labels as well as options with high-tack adhesive.

Print & Apply Systems

CLP's print & apply systems from Colamark can revolutionize carton labeling, providing enormous savings in time and resources. Options include tamp-on, blow-on, brush-on, and corner-wrap.

License Plate Number Labels

LPN labels are a crucial operational tool for many distribution facilities. CLP is the LPN label expert. Our labels are guaranteed to have high quality barcodes and to be 100% free of duplications.

Location Marking Supplies

We provide location marking supplies varying durability needs. These can be for warehouse racks and shelves, totes, bins, and more. Options include adhesive labels, plastic holders and magnets.

RFID Technology

We manufacture multiple tag and label products with the highest quality inlays available. Along with our hardware and software partners, CLP can help you use RFID to revolutionize your warehousing and distribution.

Warehouse Signs

CLP has a diverse offering of stock and custom-printed signs for warehouse organization. These include rack-mounted and hanging options.

Online Ordering

Cal-Link.net™ is CLP's innovative online ordering portal. It's modern interface helps brand-owners and supply chain partners order variable data tags and labels as well as custom branded items.

Certified Service Technicians

Our company's factory-trained technicians have expertise in multiple hardware and software platforms, allowing CLP to offer and support a diverse variety of in-plant printing solutions.
